## I. INTRODUCTION

This *Limited English Proficiency Plan* has been prepared to address the Worley Highway District's responsibilities as a recipient of federal financial assistance as they relate to the needs of individuals with limited English language skills. The plan has been prepared in accordance with Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, et seq, and its implementing regulations, which state that no person shall be subjected to discrimination on the basis of race, color or national origin. Executive Order 13166, titled *Improving Access to Services for Persons with Limited English Proficiency*, indicates that differing treatment based upon a person's inability to speak, read, write or understands English is a type of national origin discrimination. It directs each agency to publish guidance for its respective recipients clarifying their obligation to ensure that such discrimination does not take place. This order applies to all state and local agencies which receive federal funds, including all Worley Highway District departments receiving federal grant funds.

- **Plan Summary**

The Worley Highway District has developed this *Limited English Proficiency Plan* to help identify reasonable steps for providing language assistance to persons with limited English proficiency [LEP] who wish to access services provided. As defined Executive Order 13166, LEP persons are those who do not speak English as their primary language and have limited ability to read, speak, write or understand English. This plan outlines how to identify a person who may need language assistance, the ways in which assistance may be provided, staff training that may be required, and how to notify LEP persons that assistance is available. In order to prepare this plan, the Worley Highway District used the four-factor LEP analysis which considers the following factors:

1. The number or proportion of LEP persons in the service area who may be served by the Worley Highway District.
2. The frequency with which LEP persons come in contact with Worley Highway District services.
3. The nature and importance of services provided by the Worley Highway District to the LEP population.
4. The interpretation services available to the Worley Highway District and overall cost to provide LEP assistance. A summary of the results of the four-factor analysis is in the following section.

## **II. MEANINGFUL ACCESS: FOUR-FACTOR ANALYSIS**

### **1. The number or proportion of LEP persons in the service area who may be served or are likely to require Worley Highway District services.**

The Worley Highway District staff reviewed the 2016 U.S. Census Report and determined that 4132 persons in Kootenai County [3.1% of the population] speak a language other than English. Of those 4132 persons 1045 [0.8%] have limited English proficiency; that is, they speak English “not well” or “not at all, of those persons with limited English proficiency, 330 speak Spanish, 477 speak Indo-European languages, and 166 speak Asian and Pacific Island languages.

### **2. The frequency with which LEP persons come in contact with Worley Highway District services.**

The Worley Highway District staff reviewed the frequency with which District Commissioners, office staff and crew have, or could have, contact with LEP persons. This includes documenting phone inquiries or office visits. To date, the Worley Highway District has had no requests for interpreters and no requests for translated program documents. The District Commissioners, office staff and crewmen have had very little contact with LEP persons.

### **3. The nature and importance of services provided by the Worley Highway District to the LEP population.**

There is no large geographic concentration of any type of LEP individuals in the service area for the Worley Highway District. The overwhelming majority of the population, 96.9%, speaks only English. As a result, there are few social, service, professional and leadership organizations within the Worley Highway District service area that focus on outreach to LEP individuals. The Worley Highway District Commissioners and staff are most likely to encounter LEP individuals through office visits, phone conversations, notifications from crew members of impacts on services and attendance at commissioner meetings.

### **4. The resources available to the Worley Highway District, and overall costs to provide LEP assistance.**

The Worley Highway District reviewed its available resources that could be used for providing LEP assistance, which of its documents would be most valuable to be translated if the need should arise. Other language translation if needed would be provided through a telephone interpreter line for which the district would pay a fee.

### III. LANGUAGE ASSISTANCE

A person who does not speak English as their primary language and who has a limited ability to read, write, speak or understand English may be a Limited English Proficient person and may be entitled to language assistance with respect to Worley Highway District services. Language assistance can include interpretation, which means oral or spoken transfer of a message from one language into another language and/or translation, which means the written transfer of a message from one language into another language.

How the Worley Highway District staff may identify an LEP person who needs language assistance:

- Post notice of LEP Plan and the availability of interpretation or translation services free of charge in languages LEP persons would understand.
- All district staff will be provided with language identification cards to assist in identifying the language interpretation needed if the occasion arises.
- All Worley Highway District staff will be informally surveyed periodically on their experience concerning any contacts with LEP persons during the previous year.
- When the Worley Highway District sponsors an informational meeting or event, a staff person may greet participants as they arrive. By informally engaging participants in conversation it is possible to gauge each attendee's ability to speak and understand English. Although translation may not be able to be provided at the event it will help identify the need for future events.

**A. Language Assistance Measures-**Although there is a very low percentage in the Worley Highway District of LEP individuals, that is, persons who speak English "not well" or "not at all", it will strive to offer the following measures:

1. The Worley Highway District staff will take reasonable steps to provide the opportunity for meaningful access to LEP clients who have difficulty communicating English.
2. The following resources will be available to accommodate LEP persons:
  - i. Language interpretation will be accessed via Language Line Solutions at (888) 808-9008.

## **IV. STAFF TRAINING**

The following training will be provided to all staff:

- Information on the Title VI Policy and LEP responsibilities.
- Description of language assistance services offered to the public.
- Use of the Language Identification cards.
- Documentation of language assistance requests.
- How to handle a potential Title VI/LEP complaint.

**All contractors or subcontractors performing work for the Worley Highway District will be required to follow the Title VI/LEP guidelines.**

## **V. TRANSLATION OF DOCUMENTS**

- Translation resources have been identified and are limited in this region. However, when and if the need arises for LEP outreach, the Worley Highway District will consider the following options:
  - When staff prepares a document, or schedules a meeting, for which the target audience is expected to include LEP individuals, then documents, meeting notices, flyers, and agendas will be printed in an alternative language based on the known LEP population.
  - The use of online translation services will be used.

## **VI. MONITORING**

**Monitoring and Updating the LEP Plan-** The Worley Highway District will update the LEP Plan as required. At a minimum, the plan will be reviewed and updated when data from the 2020 U.S. Census is available, or when it is clear that higher concentrations of LEP individuals are present in the Worley Highway District service area. Updates will include the following:

- The number of documented LEP person contacts encountered annually.
- How the needs of LEP persons have been addressed.
- Determination of the current LEP population in the service area.
- Determination as to whether the need for translation services has changed.
- Determine whether local language assistance programs have been effective and sufficient to meet the need.
- Determine whether the Worley Highway District's financial resources are sufficient to fund language assistance resources needed.
- Determine whether the Worley Highway District fully complies with the goals of this LEP Plan.

- Determine whether complaints have been received concerning the agency's failure to meet the needs of LEP individuals.

## **VII. DISSEMINATION OF THE WORLEY HIGHWAY DISTRICT LEP PLAN**

- Post signs at the district office notifying LEP persons of the LEP Plan and how to access language services.
- State on agendas and public notices in the language which LEP persons will understand that documents are available in that language upon request at the district office.

## **LIMITED ENGLISH PROFICIENCY**

### **STAFF INSTRUCTIONS**

When a person who is addressing the highway district is found to have Limited English Proficiency (LEP), staff is instructed to do the following:

1. Hand that person a copy of the Language Identification card.
2. Once a language has been identified, contact Language Line Solutions at (888) 808-9008, enter the District provided pin #, and indicate the language when instructed. Work with the interpreter to communicate whatever info is necessary to the individual in question.
